

NEXTIME

Garden Collection

Dear NeXtime friends,

Lets go outside, proudly we like to introduce a new group of products to the NeXtime family, a group of weatherproof clocks which can be used outside in protected areas. These products can be sold online and also in Garden centers with the special Garden center display. I hope you like this new concept and that you decide to join us this spring to a possible new market for our clocks.

Weatherproof clocks can be used outside and can resist humidity. Preferably these products hang in a protected area outside and not in open weather situations.

Cottage

These nice galvanized metal series are suitable for outside. Basic cottage style for every garden with time, temperature and barometer gives you all the information you need to know.
